June 9th, 2009

Senator Bill Nelson
United States Senate
716 Senate Hart Office Building
Washington, DC 20510

Dear Senator Nelson,

This purpose of this letter is to call your attention to the greed of United States Drug Companies. On June 6th 2009 I had an appointment with my dermatologist he removed about 4 small skin samples for biopsy. I have some skin damage as a result of excessive sun that occurred while I was a young child. I have had about 4 skin cancer basal cells removed. I have sent a copy of this letter to Senator John McCain since he is familiar with skin cancer and treatments.

The dermatologist prescribed Fluoroplex/Efudex Cream 5% 20 Grams, this prescription is available in generic form.

Cost for this prescription at Wal-Mart Generic (the cheapest) in the United States

\$249.00

Cost for this prescription in Canada at Canadrugs. Com

\$11.85 + \$6.50 shipping (Generic)

\$36.49 + \$6.50 shipping (Brand)

If you are interested in verifying this information you can contact Wal-Mart and Canadadrug.com, the toll free number for Canada Drugs is 800-226-3784.

It is suggested that this information be used to assist in President Obama's fight for a national health care system.

Thank you for your time,

Stephen L. Whetstone
