**From: Jim Odle, President**

**Subject: Email from Corteva Connections**

Many if you probably [got this email](#) yesterday from Corteva Connections. Lots of people have contacted me wanting to know if it is legit. It is a little confusing and usually these things are sent by US Mail. One of the retirees in our group here called them and below is what he said:

**"I called Corteva Connect. It's legit. Just a layer of protection in case someone accesses our pensions and tries to get at it. Not a phish or a scam. They probably could have explained this better."**

Also it doesn't seem that any action is required although it suggests that you have your cell phone on file with Corteva Connections (see what I highlighted in red). If you have additional questions you can call Corteva Connections on 800-775-5955. I also wondered what Alrht is and I found this:

"Hewitt ceased to exist as an independent entity at the completion of its purchase by the Aon Corporation in October 2010. ... October 1, 2010: acquired by Aon. May 1, 2017: outsourcing department sold to private equity firm Blackstone and rebranded as Alight Solutions."

[Read the email about the Alight Protection Program here.](#)
